.2 ASC Telecom Operator Services

.1 Description of Service

Operator Services are available from specific locations within the state of Arizona for a charge.

Access to Operator Service can be obtained by the following dialing methods.

- “00” from a telephone subscribed to ASC in a FGD area.
- “0 + (NRA-NXX-XXXX)” from a telephone subscribed to ASC in a FGD area.
- “10252” + “0” + from an ASC or non-ASC subscribed telephone in a FGD area.

ASC Telecom provides the service of connecting customers to a nationwide Directory Assistance operator for a per-call charge as described in Rate Schedule 1 of this tariff for intrastate information requests. Customers can receive up to two numbers per request. The fee applies whether or not the Directory Assistance operator furnishes the requested telephone number(s), e.g., the requested telephone number is unlisted, non-published or no record can be found. Requests for information other than telephone numbers will be charged for as requests for telephone numbers.

A credit allowance for Directory Assistance will be provided upon request if a customer experiences poor transmission quality, is cut-off, receives an incorrect telephone number, or misdials the intended Directory Assistance number.

3. SERVICE AND RATE DESCRIPTION (Continued)

.2 AlternaTel Service

AlternaTel Service is an intercity service, which is available for twenty-four (24) hours a day. The subscriber will use one or more of the three following dialing patterns to gain access to the AlternaTel fiber optic network:

- .1 In Feature Group D (FGD) exchanges, subscriber's telephone line(s) presubscribed to AlternaTel are programmed by the local exchange company (LEC) to automatically route "1+" calls to the Carrier's network.
- .2 Customers who have selected AlternaTel as their "secondary" interexchange long distance carrier dial "10 10XXX+" to access the Carrier's network.
- .3 In some LATAs, in areas where equal access conversion has not yet occurred, some AlternaTel Service subscribers dial an access number and authorization code to gain access to the Carrier's network.

Subscribers may originate AlternaTel Service from the state of Arizona and may terminate and may terminate calls in all locations within the state. In the event, AlternaTel determines that provision of AlternaTel Dial-Up Service, via a seven digit access number and authorization code, imposes a significant risk of fraudulent use of its service, AlternaTel may choose not to process new orders for Dial-Up Service and/or may, after written notice, cancel existing customers' authorization codes. In such cases, AlternaTel will continue to offer customers its "800" access Calling Card Service. AlternaTel Dial "1" Service or the "10 1 OXXX" access number will also be offered where equal access (FGD) is available. Subscribers who use AlternaTel Dial-Up Service in conjunction with automatic dialing equipment may be exempted from this requirement when AlternaTel determines that the likelihood of fraudulent use of the service using such equipment is not significant. AlternaTel service is billed in one (1) minute increments.

A credit allowance for Directory Assistance will be provided upon request if a customer experiences poor transmission quality, is cut-off, receives an incorrect telephone number, or misdials the intended Directory Assistance number.

National Directory Assistance Service gives a customer the option of completing a call to the called station telephone number received from the Directory Assistance operator without hanging up and originating a new call.
